Paulo Freire

Justification

Paulo Freire's thought and praxis, which are rooted in peoples' cultures, are crucial instruments of resisting and *fighting against neoliberalism*, its model of economic globalisation and its pedagogy of exclusion.

In a context of dehumanized social and people relations, and remarkable presence of an ideological speech that deny dreams, Paulo Freire's work constitutes an important legacy to construct solidarity and a less unequal society.

Objectives

The First International Meeting of *Paulo Freire Forum* intends to join educators, researchers and other people interested in *deepen the knowledge* of Paulo Freire's legacy.

It also intends to permit participants to *exchange experiences* and to *strengthen links* among organizations which develop works and researchers related to his legacy.

Methodology

The program will emphasize the *dialogue*, through reports of experiences, the *reflection* on participants' practices and Paulo Freire's theory, and *proposals* related to the challenge of including marginalized people.

People interested in participating should send to IPF, diskette or e-mail, as a registration procedure, one page *summary* reporting (winword 6.0) an *experience* that makes evident the influence of Freirean Pedagogy or expressing the importance of *Paulo Freire in the history of ideas*.

The elaboration of the *program* and the formation of the *work groups* during the meeting will be based on the summaries. They should be written in one of these languages: Portuguese, Spanish or English.

Reminding Paulo Freire

At the closing of the activities, on April 30th, at 8 p.m., a celebration in memory of Paulo Freire, open to the public, will take place in Pontifícia Universidade Católica (PUC-SP).
